## Re-entering the acquirers' space

While Transtema was an active acquirer in 2016-18, making 16 acquisitions, it has not made any since then. However, following a successful turnaround with lowered net debt and increased stability in its operations, Transtema looks set to head into the acquirers' space again, which adds another value driver to the case. The Q2 report was impressive with organic revenue growth of 39% and an EBITA margin of 8%. This was driven by previously announced contracts, with the 5G framework agreement with Ericsson contributing slightly. The company expects more from this in H2 and onwards and we expect continued strong performance in 2021 with 126% EBITA growth. While we do not include M&A in our estimates just yet, we raise our valuation range to SEK 26.7-33.1 (19.5-23.7) on the back of the report. This implies a discount of 10-28% to key peers on 2022E EV/EBITA.

## Q2 2021 results indeed warrant an upgraded financial target

Transtema delivered a strong set of results for Q2 2021, with net revenue growing 39% organically and EBITA margins increasing to 8% as a result of operating leverage, leading to a beat of 53% versus our EBITA estimate. Due to the continued strong financial results, Transtema changed its financial target for revenue growth to 10% including acquisitions from the previous target of 3% organically.

## In a good position for the next stage

The strategy signifies the reignition of Transtema's acquisition agenda after the company made a series of 16 acquisitions between 2016 and 2018. While little is so far known to us regarding the strategy (we have thus not included acquisitions in our estimates), we believe that Transtema has built a solid operational base with high cash generation and long-term contracts, laying a good foundation for success. Acquisitions would also broaden Transtema's customer base, which is on the concentrated side. Moreover, we note that the company's net debt/EBITDA of 0.2x gives it a long runway for acquisitions, especially compared to its target of a maximum 2.0x, which gives it firepower of SEK ~350m.

## Valuation

We lift our DCF-based valuation range to SEK 26.7-33.1, which corresponds to a 2022E EV/EBITA of 8-10x and a discount of 10-28% versus key peers.

## SUMMARY TABLE - KEY FIGURES

# Company overview

Transtema is a Swedish company that delivers services and solutions in networks and communications infrastructure. It is one of the leading players in the market, and its biggest customer is currently Telia. The company recently changed its strategy, discontinuing its operations in the FTTH and in the data centre and cloud infrastructure segments; it also shifted its focus to operation and maintenance services. The company employs around 920 people and has operations in 35 different locations in Sweden, as well as in Oslo, Norway.

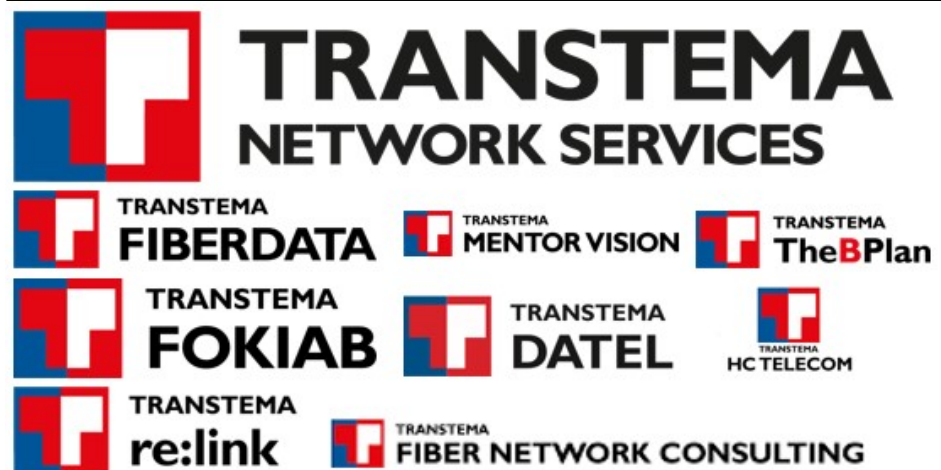

Transtema is involved in the design, construction, maintenance and operation of communication networks

## Company overview

Transtema consists of ten subsidiaries and is active in both construction, where it can handle large turn-key projects, as well as aftermarket services in the operation and maintenance of communication networks. Traditional telecommunication network owners are its largest customers, however, Transtema can also address installation and maintenance of smaller and more concentrated networks. The company generated approximately 96% of its revenues in Sweden during 2019, whereas the remainder came from its operations in Norway. Transtema has developed three financial targets that it is striving to achieve over the course of an economic cycle:

- Revenue growth of 3% per year
- An EBITA margin of 5%
- Net debt/EBITDA below 3x

## TRANSTEMA SUBSIDIARIES

Source: Company data

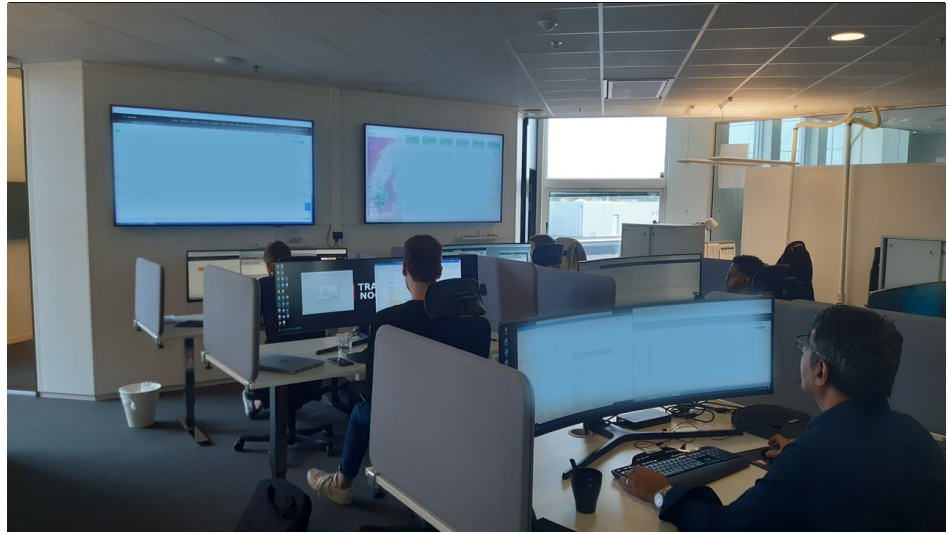

Transtema's main income driver is now in operations and maintenance

While the company's core operations historically have been FTTH installations, it recently shifted strategies by divesting the business area due to its poor profitability and unstable nature. The core of Transtema's new strategy is a focus on its operations and maintenance business (O&M), which is more stable and profitable than FTTH. In 2019, O&M generated 70% of net sales in the company's continuing operations.

The company has developed a proprietary IT system for resource handling, which optimises route handling and service agent allocation

The O&M business includes running the daily operations in the networks, which in turn includes ensuring the quality of service and minimising network downtime. To ensure maximum efficiency and quality of service, the company has developed a proprietary IT system for resource handling. The system automatically optimises ticket-handling routes and allocation for its service agents, in effect increasing the pace at which Transtema can handle its tickets and enhancing efficiency by increasing the number of tickets handled per employee. The maintenance division manages operations and maintenance for 25 network owners with a 24/7 service and network operating centre.

### ONE OF TRANSTEMA'S NETWORK OPERATING CENTRES (NOC)

Source: Company data and Nordea

The company currently has a service coverage of 60% of the Swedish population, which it can reach within one hour, and is currently expanding to 100%

With the acquisition of TNS in 2018, the group increased its geographical coverage in southern and central Sweden and now has the capability of reaching 60% of the Swedish population within one hour. In order to support Transtema's contract expansion with Telia, the company is in the process of increasing its reach across Sweden. In time, the company will have service coverage of 100% of the Swedish population, which is a unique position in the country.

### Company history

Transtema was founded in Mölndal in 1997, and has since grown from being a local player to a well-known national company

Transtema AB was founded in 1997 by current group CEO and member of the board, Magnus Johansson. It was first established in Mölndal, outside Gothenburg in Western Sweden, where its headquarters are still located. However, the company has expanded its operations and is now present in over 35 cities all over Sweden, as well as in Oslo, Norway. Over the years, the company has, through strategic acquisitions and business development, expanded from being a local player to becoming a well-known national company. Because of this, Transtema has succeeded in developing a solid business platform with a broad technical knowledge as well as large geographical coverage, which enables it to compete for large contracts, eg Telia and E.ON. Its wide geographical coverage enables it to reach approximately 60% of the Swedish population within one hour, a reach which will expand to 100% in December 2020 when new contracts are operational.

**TRANSTEMA: MILESTONES**

Year	Event
1997	Transtema is founded by Magnus Johansson, with a focus on radio link, network and consulting services
1998	First service agreement for operation of communication networks
2002	First service agreement for operation all day and night, all year around
2003	Optic fiber installations becomes bigger than radio link systems
2004	Starts own 24-hour network operating center, "NOC"
2008	Subsidiary Relink Network is established
2011	Introduction of management systems for quality assurance, environmental assurance and work environment Transtema acquires IP-konsulterna AB
2014	Transtema Group is created from Transtema AB and Relink AB and a new growth strategy is established
2015	Listed on Aktietorget
2016	Transtema Group acquires Fiber Gruppen i Sverige AB Transtema acquires Datelab AB Transtema acquires Fiber Solution Sweden AB Transtema acquires HC Telecom AB Transtema acquires WinCore AB Transtema acquires BearCom AB Transtema changes its listing exchange from Aktietorget to Nasdaq First North

2018	Rights issue of 325,000 new shares Transtema acquires Ericsson Local Services AB and renames the entity Transtema Network Services AB
2019	Decides to divest Transtema Infrastructure, and file for bankruptcies for the subsidiaries Andersson & Jansäter, Nordlund Entreprenad and TIAB Recognises Transtema Infrastructure as discontinued TNS wins procurement, estimated order value from E.ON of SEK 180 million over three years
2020	TNS wins procurement with 3GIS TNS renews and extends its contract with Telia Transtema divests its Emerging Business segment

Source: Company data

The company experienced high growth in FTTH between 2016 and 2018 and made several acquisitions

Between 2016 and 2018, the company experienced high growth due to strong fibre expansion, spurred on by connectivity goals set by the Swedish government. During this period, Transtema focused on FTTH (fibre-to-the-home) construction, which included large turnkey projects and excavation activities. Moreover, the company made a large number of acquisitions within this area.

However, the company eventually experienced governance and project calculation issues within its FTTH operations

While the acquisitions created a solid foundation with a large geographical footprint, the high pace also led to governance problems in the company's portfolio of subsidiaries, as aggressive revenue recognition for some of its unfinished projects was eventually discovered. This resulted in significant writedowns and project losses. Moreover, final adjustments in excavation projects related to its FTTH operations continued to burden the company.

**Strategy shift and acquisition of Ericsson Local Services**

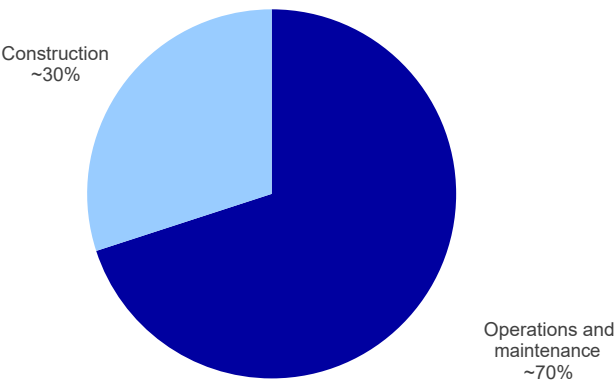

The company decided to diversify into operations and maintenance at the end of 2018, as the market was refocusing away from construction

In 2018, the company started to experience a downturn in the FTTH market, as the market had matured and there was little to no expansion in the underlying fibre network. The company subsequently decided to diversify its operations by acquiring the maintenance-focused company Ericsson Local Services (LSS), stating that the market was gradually refocusing from construction to operation and maintenance. This marked a first step towards a new strategy entailing a greater focus on operation, maintenance and technical services related to network infrastructure.

Subsequently, the company decided to divest its FTTH operations in 2019

In 2019, the company decided to divest its Infrastructure division and five of its subsidiaries active in the FTTH market. In conjunction with this, it also decided to exit Denmark. The new strategy and the acquisition of LSS changed the business mix radically for Transtema. Previously, 85% of the company's business consisted of building fibre networks, where Transtema had contracts controlling the whole value chain – from design to installation. Today, the mix is the opposite, with around 70% of the company's business consisting of network operations and maintenance ("O&M"), which is set to increase as new contracts are implemented in H2 2020 and 2021.

**BUSINESS MIX AT THE END OF 2019**

*Source: Company data and Nordea estimates*

We see the strategy shift as beneficial since the new focus is characterised by lower risk and seasonality, as well as by higher margins and more stability than FTTH

In our view, this represents a solid strategy shift, as O&M is typically characterised by longer contracts of around three to five years, better profitability and less seasonality than construction, as well as significantly lower project risk compared to the FTTH business. The company has also decided to discontinue its Emerging Business division, as it is not considered to be a part of Transtema's core operations. As a result of the implementation of the new strategy, the company now solely operates within its Network Services business area, in which it runs both construction and O&M.

## Estimate changes

We lift our estimates for net sales by 5-6% for 2021-23, mainly reflecting the strong momentum in the company's operations. Due to the operational leverage and the strong margins that are evident in the Telia contract, we lift EBITA by 25% for 2021E and by 15-18% for 2022E-23E.

# Disclaimer and legal disclosures

## Origin of the report

This publication or report originates from: Nordea Bank Abp, including its branches Nordea Danmark, Filial af Nordea Bank Abp, Finland, Nordea Bank Abp, filial i Norge and Nordea Bank Abp, filial i Sverige (together "Nordea") acting through their units Nordea Markets and Equity Sales & Research.

Nordea Bank Abp is supervised by the European Central Bank and the Finnish Financial Supervisory Authority and the branches are supervised by the European Central Bank and the Finnish Financial Supervisory Authority and the Financial Supervisory Authorities in their respective countries.

## Content of report

This report has been prepared solely by Nordea Markets or Equity Sales & Research.

Opinions or suggestions from Nordea Markets credit and equity research may deviate from one another or from opinions presented by other departments in Nordea. This may typically be the result of differing time horizons, methodologies, contexts or other factors.

The information provided herein is not intended to constitute and does not constitute investment advice nor is the information intended as an offer or solicitation for the purchase or sale of any financial instrument. The information contained herein has no regard to the specific investment objectives, the financial situation or particular needs of any particular recipient. Relevant and specific professional advice should always be obtained before making any investment or credit decision.

Opinions or ratings are based on one or more methods of valuation, for instance cash flow analysis, use of multiples, behavioural technical analyses of underlying market movements in combination with considerations of the market situation and the time horizon. Key assumptions of forecasts or ratings in research cited or reproduced appear in the research material from the named sources. The date of publication appears from the research material cited or reproduced. Opinions and estimates may be updated in subsequent versions of the report, provided that the relevant company/issuer is treated anew in such later versions of the report.

## Validity of the report

All opinions and estimates in this report are, regardless of source, given in good faith, and may only be valid as of the stated date of this report and are subject to change without notice.

## No individual investment or tax advice

The report is intended only to provide general and preliminary information to investors and shall not be construed as the basis for any investment decision. This report has been prepared by Nordea Markets or Equity Sales & Research as general information for private use of investors to whom the report has been distributed, but it is not intended as a personal recommendation of particular financial instruments or strategies and thus it does not provide individually tailored investment advice, and does not take into account the individual investor's particular financial situation, existing holdings or liabilities, investment knowledge and experience, investment objective and horizon or risk profile and preferences. The investor must particularly ensure the suitability of an investment as regards his/her financial and fiscal situation and investment objectives. The investor bears the risk of losses in connection with an investment.

Before acting on any information in this report, it is recommendable to consult (without being limited to) one's financial, legal, tax, accounting, or regulatory advisor in any relevant jurisdiction.

The information contained in this report does not constitute advice on the tax consequences of making any particular investment decision. Each investor shall make his/her own appraisal of the tax and other financial merits of his/her investment.

## Sources

This report may be based on or contain information, such as opinions, estimates and valuations which emanate from: Nordea Markets' or Equity Sales & Research analysts or representatives, publicly available information, information from other units of Nordea, or other named sources.

To the extent this publication or report is based on or contain information emanating from other sources ("Other Sources") than Nordea Markets or Equity Sales & Research ("External Information"), Nordea Markets or Equity Sales & Research has deemed the Other Sources to be reliable but neither Nordea, others associated or affiliated with Nordea nor any other person, do guarantee the accuracy, adequacy or completeness of the External Information.

## Limitation of liability

Nordea or other associated and affiliated companies assume no liability as regards to any investment, divestment or retention decision taken by the investor on the basis of this report. In no event will Nordea or other associated and affiliated companies be liable for direct, indirect or incidental, special or consequential damages (regardless of whether being considered as foreseeable or not) resulting from the information in this report.

## Risk information

The risk of investing in certain financial instruments, including those mentioned in this report, is generally high, as their market value is exposed to a lot of different factors such as the operational and financial conditions of the relevant company, growth prospects, change in interest rates, the economic and political environment, foreign exchange rates, shifts in market sentiments etc. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. Past performance is not a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. When investing in individual shares, the investor may lose all or part of the investments.

## Conflicts of interest

Readers of this document should note that Nordea Markets or Equity Sales & Research has received remuneration from the company mentioned in this document for the production of the report. The remuneration is not dependent on the content of the report.

Nordea, affiliates or staff in Nordea, may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any company mentioned in the report.

To limit possible conflicts of interest and counter the abuse of inside knowledge, the analysts of Nordea Markets and Equity Sales & Research are subject to internal rules on sound ethical conduct, the management of inside information, handling of unpublished research material, contact with other units of Nordea and personal account dealing. The internal rules have been prepared in accordance with applicable legislation and relevant industry standards. The object of the internal rules is for example to ensure that no analyst will abuse or cause others to abuse confidential information. It is the policy of Nordea that no link exists between revenues from capital markets activities and individual analyst remuneration. Nordea and the branches are members of national stockbrokers' associations in each of the countries in which Nordea has head offices. Internal rules have been developed in accordance with recommendations issued by the stockbrokers associations. This material has been prepared following the Nordea Conflict of Interest Policy, which may be viewed at [www.nordea.com/mifid](http://www.nordea.com/mifid).

## Distribution restrictions

The securities referred to in this report may not be eligible for sale in some jurisdictions. This report is not intended for, and must not be distributed to private customers in the UK or the US or to customers in any other jurisdiction where restrictions may apply.

This publication or report may be distributed in the UK to institutional investors by Nordea Bank Abp London Branch of 6th Floor, 5 Aldermanbury Square, London, EC2V 7AZ, which is under supervision of the European Central Bank, Finanssivalvonta (Financial Supervisory Authority) in Finland and subject to limited regulation by the Financial Conduct Authority and Prudential Regulation Authority in the United Kingdom. Details about the extent of our regulation by the Financial Conduct Authority and Prudential Regulation Authority are available from us on request.

Nordea Bank Abp ("Nordea") research is not "globally branded" research. Nordea research reports are intended for distribution in the United States solely to "major U.S. institutional investors," as defined in Rule 15a-6 under the Securities Exchange Act of 1934. Any transactions in securities discussed within the research reports will be chaperoned by Nordea Securities LLC ("Nordea Securities"), an affiliate of Nordea and a SEC registered broker dealer and member of FINRA. Nordea Securities does not employ research analysts and has no contractual relationship with Nordea that is reasonably likely to inform the content of Nordea research reports. Nordea makes all research content determinations without any input from Nordea Securities.

The research analyst(s) named on this report are not registered/qualified as research analysts with FINRA. Such research analyst(s) are also not registered with Nordea Securities and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

This report may not be mechanically duplicated, photocopied or otherwise reproduced, in full or in part, under applicable copyright laws.

**Analyst Shareholding**

Nordea analysts do not hold shares in the companies that they cover. No holdings or other affiliations by analysts or associates.

**Fair value and sensitivity**

We calculate our fair values by weighting DCF, DDM, SOTP, asset-based and other standard valuation methods. Our fair values are sensitive to changes in valuation assumptions, of which growth, margins, tax rates, working capital ratios, investment-to-sales ratios and cost of capital are typically the most sensitive. It should be noted that our fair values would change by a disproportionate factor if changes are made to any or all valuation assumptions, owing to the non-linear nature of the standard valuation models applied (mentioned above). As a consequence of the standard valuation models we apply, changes of 1-2 percentage points in any single valuation assumption can change the derived fair value by as much as 30% or more. All research is produced on an ad hoc basis and will be updated when the circumstances require it.

**Marketing Material**

This research report should be considered marketing material, as it has been commissioned and paid for by the subject company, and has not been prepared in accordance with the regulations designed to promote the independence of investment research and it is not subject to any legal prohibition on dealing ahead of the dissemination of the report. However, Nordea Markets analysts are according to internal policies not allowed to hold shares in the companies/sectors that they cover.

**Market-making obligations and other significant financial interest**

Nordea has no market-making obligations in Transtema Group AB.

**Investment banking transactions**

In view of Nordea's position in its markets readers should assume that the bank may currently or may in the coming three months and beyond be providing or seeking to provide confidential investment banking services to the company/companies

**Issuer Review**

*This report has not been reviewed by the Issuer prior to publication.*

**Completion Date**
